

Gas Work Licence – Restricted to Service

**Selected units from CPC32713 Certificate III in Gas Fitting
& CPC40912 Certificate IV in Plumbing and Services**

Quick Info/Registration Form

Next upcoming course: Canberra 2016

Organisation: Bizmatrix Pty Ltd

Address: CIT Fyshwick

Phone: 1300 588 749

Email: info@bizmatrix.edu.au

Website: www.bizmatrix.edu.au

RTO No. 32074 **DET:** 0001318900

ABN: 53 122 030 451

Restricted Gas Licence in detail:

Course outline:

The restricted gas course is made of selected units from CPC32713 Certificate III in Gas Fitting. It is designed to enable participants to service Type A domestic and commercial appliances, by applying for their Gas Work Licence Restricted to Service. It can also be used as pathway to completing the Certificate III in Gas Fitting.

Delivery mode:

In class for 9 days over a three-month period, or through correspondence (books sent out to you) with 4 - 5 practical dates arranged.

Who can do Restricted Gas Licence?

The course is open to anyone looking to gain further knowledge in servicing Type A appliances. This includes (but is not only for) licensed tradespersons within the electrical, mechanical, electronics, metal work, refrigeration and air-conditioning fields who are required to work on Type A gas appliances.

How long will I hold this licence for?

In the first year you will hold an interim licence, then after that be able to apply for your 5 year Restricted Gas Licence. The Gas Work Restricted to Service licence is valid for as long as you are working in the trade industry, however it must be renewed every 5 years which incurs a small fee each time.

Course details:

Attendees will gain valuable knowledge about correct and safe working procedures for Type A commercial/ domestic gas appliances, gas and electrical servicing, general safety and risk control processes, commissioning, repairs, program service and maintenance from the basics, to correct servicing techniques of more complex equipment and how to safety check and leak check equipment, plus many other benefits.

The course will have a mixture of practical and theoretical training on a wide range of commercial gas equipment. The course has been designed as an **interactive training system** to comply with the National Training System, from the Construction, Plumbing and Services Integrated Framework Training Package and delivered by Darrel Vecchio qualified Diploma In Training and Assessment. You will gain an insight into a diverse range of commercial and domestic Type A gas equipment. This is a unique opportunity to improve your knowledge and networks, which you will be able to convert into business opportunities.

Assessment:

Written and practical exams on a wide range of equipment. All assessments follow Nationally Accredited training style.

Course details

Students will work on a range of appliances and cover the following.

Additional caravan certification option: This unit is for Caravan servicing and certification. Provided you are competent, you will be permitted to inspect and service caravans and issue Gas System Compliance Certificates to meet relevant inspection/certification requirements in the petroleum and Gas (Production and Safety) Regulation 2004. You are restricted to undertaking the activities listed in FAQ at the end of this document.

Commercial / Domestic Type A gas appliance training:

- Gas fryers, woks, ranges, combi ovens intro
- Gas conveyor ovens, domestic gas appliances, hot water systems, CO/CO2 combustion checks
- Correct, testing, setup, disconnection and reconnection techniques
- Emphasis on commercial gas equipment

Service training and testing

- Commercial Domestic range, woks, ranges, fryers, salamander and other equipment
- Gas-Electrical servicing, commissioning and maintenance theory
- Correct testing procedures and methodology
- Thermocouple, thermostat, thermopile and electronic ignition training
- Back to the basics – refresher training/ service techniques
- The correct methods of bubble leak tests and using the correct pressures
- AS5601-1&2 and AS1596 how the codes affect safe installation and service
- Electrical with gas training, control circuits and complex gas systems

Units covered:

<i>Work effectively in the plumbing and services sector</i>	<i>CPCPCM2041A</i>
<i>Carry out interactive workplace communication</i>	<i>CPCPCM2039A</i>
<i>Carry out WHS requirements</i>	<i>CPCPCM2043A</i>
<i>Provide basic emergency life support</i>	<i>HLTFA211A</i>
<i>Purging consumer piping</i>	<i>CPCPGS3051A</i>
<i>Maintain Type A gas appliances</i>	<i>CPCPGS3052A</i>
<i>Disconnect and reconnect Type A appliances</i>	<i>CPCPGS3053A</i>
<i>Calculate and install natural ventilation for Type A appliances</i>	<i>CPCPGS3054A</i>
<i>Carry out work based risk control processes</i>	<i>CPCPCM4011A</i>
<i>Service Type A Gas appliances</i>	<i>CPCPGS4022A</i>
<i>Additional Caravan unit for issuing gas system compliance certificates</i>	
<i>Install LPG systems in caravans, mobile homes and mobile workplaces</i>	<i>CPCPGS3046A</i>

After you are deemed competent, what's next?

This course is a pathway to developing comprehensive skills and knowledge of the Commercial/Domestic Gas Industry and will help you to further your career. Successful participants will receive a Statement of Attainment which, together with other relevant criteria, will enable them to make an application to the State gas regulating authorities for a Gas Work Licence Restricted to Service.

On completion of the Gas Work Licence Restricted to Service, the applicant may continue with the Full Works Licence (Part A) Interim, incorporating a Certificate III in Gas Fitting. All Units studied in the Gas Work Licence Restricted to Service will be credited towards the Certificate III in Gas Fitting.

Successful participants will receive:

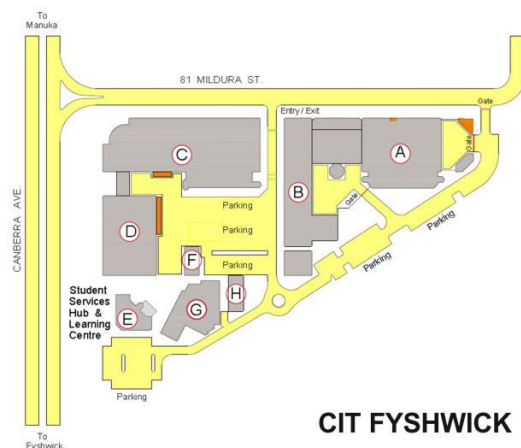

- A Statement of Attainment in recognition with and conforming to the AQTF requirements
- Access to technical support & information
- Confidence in their ability to install, commission, service, repair and maintain commercial/ Industrial Type A gas appliances
- Greater knowledge of Type A gas appliances and equipment
- Personalised tuition - class sizes restricted to maximum 5-8 people
- Access to further training & information about the gas industry by becoming a member of the BIZMATRIX database

How to get a USI Number

Steps to create a USI Number

Step 1. Have at least one and preferably two forms of ID ready from the list below:

- Driver's Licence
- Medicare Card
- Australian Passport
- Visa (with Non-Australian Passport) for international students
- Certificate of Registration by Descent
- Citizenship Certificate
- Immi Card

Step 2. Have contact details ready (e.g. email address, or mobile number, or address).

Step 3. Visit the USI website at: usi.gov.au

Step 4. Select the 'Create a USI' link and follow the steps.

Step 5. Agree to the Terms and Conditions.

Step 6. Follow the instructions to create a USI – it should only take a few minutes. Upon completion, the USI will be displayed on the screen. It will also be sent to the student's preferred method contact.

Step 7. The student should then write down the USI and keep it somewhere handy and safe.

Important Make sure your personal details entered when creating your USI must match exactly with those on their form of ID.

For more information please visit: usi.gov.au Or contact us at Email: usi@industry.gov.au

Phone: 1300 770 217

Frequently Asked Questions- Additional Information

Caravan Servicing and Certification Licence restrictions.

Upon completion of the Gas Work Licence Restricted to Service with Caravan option successful students will be able to issue Gas System Compliance Certificates to meet the relevant inspection/certification requirements. Gas System Compliance Certificates may only be issued for caravan, RV's and motorhomes, and boats/marine do not fall under this unit.

Please note: This unit does not allow students to certify individual gas appliances, however only review gas system compliance as a whole, which is necessary for completion prior to issuing road worthy certificates. No individual appliance gas certification work may be completed under this licence.

- Gas System Compliance Certification must take into account all relevant safety requirements of caravans with particular emphasis on ensuring appliances are approved, adequate ventilation, good combustion and no leakage. The certificate you sign states that you have inspected the gas system and that all the requirements of the standard have been met.

Work outside the scope of your licence (Gas Work Licence – Restricted to Service with Caravan unit):

- You are not permitted to install a new or replacement gas appliance of any type including 'like for like'. However, you may 'refit' the same appliance which you removed for cleaning/checking, but only in the same place and in the same way.
- You are not permitted to carry out any installation, modification or repair to pipework other than tightening existing joints to seal any leakage.
- You are not permitted to accept/certify any work that is not in strict compliance with the standards
- For more information in line with the standards please see [Gas Work Notes here.](#)

Can I install Type A appliances?

No. You must undertake your Full Gas Licence (Certificate III in Gas Fitting) to be able to install gas appliances. Under the Restricted Gas Licence you are only able to service domestic and commercial gas appliances ,Type A gas appliances only.

What is a Gas Work Licence restricted to service

The gas Service licence allows the competent person to carry our service maintenance and repairs of Type A gas appliances, like gas stoves, gas hot water systems, gas commercial catering equipment and many other appliances. The gas service licence allows you to disconnect and reconnect the existing Type A gas appliance. You are able to issue a gas defect notice if required.

Can you service Type B industrial gas appliances? No! This requires further experience and the completion of CPCPGS4023B Install, service maintain Type B gas appliances and complete a restricted electrical licence or have an REL.
